About

Velox is a pioneer of the Indian IT Infra Monitoring and Cyber Security domain. We develop Information Technology Security Solutions and have been in the industry throughout the last decade. Velox has a range of world-class products that meet International Standards in terms of quality and delivery. We offer our solutions to many industries, such as the BFSI sector, Health Care, Manufacturing, and Industrial Automation Systems sector, just to name a few.

With Velox's subsidiary in the United States of America, presence in 7 countries and 3 continents and counting, and the inclusion of our adoption of international standards and regulation, with ISO 9001:2015, 20000 & 27000 and PA-DSS global certifications for our operations, Velox is set for global domination.

SecureIT®
Software Discovery

SecureIT - Software Discovery is a solution that enables an organization to have track of all the software installed on any/ all of its assets.

SecureIT - Software Discovery is tied along with our Information Technology Asset Management solution that helps our clients to have optimum utilization of resources.

With the integration of our SecureIT - Software Discovery feature with our Information Technology Asset Management, we make sure that our clients get a closer look at their assets and plan their upgrades/ updates/ warranties/ license agreements, which further leads to better utilization of our client's annual budgetary and financial resources.

VELOX®
Develops Opportunities For Enterprises...

SecureIT®
Software Discovery | Features

- Agent-based and Agentless discovery

- Discovers all the software installed on the organizational setup (endpoints, servers, and more)

- Capable of developing license details related to the respective software

- Our solution also identifies the software versions, OEM, and also the software counts installed on the endpoint

- Also provides the option of scheduling the discovery of software installed on the assets

Benefits

- Better allocation of our client's financial resources

- Higher scalability gives more flexibility in the usage of the application

- Less manual intervention ensures greater accuracy
