

Cyber Security Innovations Powered by AI

Velox is a Global cybersecurity OEM delivering advanced, AI-powered technologies that have strengthened Security Operations and Enterprise Resilience for over 14 years. Our solutions enable faster threat detection, automated response, and deep visibility across users, endpoints, and infrastructure. Leveraging AI-driven SIEM, SOAR, and behavioural analytics, Velox builds proactive, intelligence-led SOC environments, empowering government and enterprise sectors to stay ahead of evolving cyber threats.

Endpoint Security Solution

- 1 Endpoint Detection & Response (EDR)
- 2 Extended Detection & Response (XDR)
- 3 Antivirus & Anti-Malware
- 4 Data Loss Prevention (DLP)
- 5 Patch Management
- 6 Application Whitelisting
- 7 Full Hard Disk Encryption (FHDE)
- 8 Remote Device Management
- 9 Host Intrusion Prevention System (HIPS)
- 10 Threat Intelligence Platform (TIP)
- 11 Mobile Device Management (MDM)
- 12 Centralized Content Distribution (CCD)
- 13 File Integrity Monitoring
- 14 Anti Advanced Persistent Threat
- 15 Cyber Risk Management & Resilience
- 16 Vcare Backup Solution

Unified Endpoint Security Management (UESM) - Single Agent Comprised of:

- Endpoint Detection & Response (EDR)
- Next Gen Antivirus
- Data Loss Prevention (DLP)
- Patch Management
- Full Hard Disk Encryption (FHDE)
- Application Control
- Extended Detection & Response (XDR)
- Threat Intelligence Platform (TIP)
- Remote Device Management
- Centralized Content Distribution (CCD)
- File Integrity Monitoring
- IT Asset Management

Privileged Identity Management (PIM)

- Just-In-Time (JIT) Access
- Role-Based Access Control (RBAC)
- Approval Workflows
- Time-Bound Access
- Privileged Role Activation
- Audit Logs & Reporting
- Identity Lifecycle Management
- Risk-Based Access Policies

Privileged Access Management (PAM)

- Password Vaulting
- Credential Rotation
- Session Management & Monitoring
- Session Termination
- Privileged Session Recording
- Secure Remote Access
- Application-to-Application Credential Management
- Threat Analytics & Alerts
- Least Privilege Enforcement
- Compliance & Reporting

Network Monitoring System (NMS)

- Network Performance & Traffic Analysis
- Device & Infrastructure Monitoring
- Alerting, Reporting & Analytics
- Network Intrusion Prevention Systems (NIPS)
- Network Detection & Response (NDR)
- Topology & Configuration Management
- Protocol & Interface Monitoring
- Network Anomaly Behaviour Detection
- Network Operation Center (NOC)

Security Operations Center (SOC)

Security Information and Event Management (SIEM)

- Centralized real-time log collection, correlation, and threat detection
- Advanced analytics with threat intelligence enrichment and compliance reporting
- Scalable monitoring with customizable dashboards, alerts, and forensic search

Security Orchestration, Automation & Response (SOAR)

- Automates incident investigation and response workflows
- Unifies alerts from SIEM, EDR, TIP, and security tools
- Enables rapid containment through automated actions

User & Entity Behaviour Analytics (UEBA)

- Uses behavioural baselining and machine learning
- Identifies insider threats, credential misuse, and compromised accounts
- Provides contextual visibility linking users, assets, and events

Log Management

- › Centralized log collection
- › Real-time log monitoring and
- › Intelligent alerting
- › Encrypted Log handling
- › High-performance log storage
- › Scalable architecture
- › High-throughput processing
- › Extensive multi-technology support
- › Flexible and scalable deployment
- › Seamless integrations

Information Technology Service Management (ITSM)

ITSM streamlines IT and non-IT service management with automation, self-help capabilities, and seamless integrations to enhance user experience and operational efficiency.

Service Desk & Request Management

Incident & Problem Management

Change & Release Management

Reporting, Dashboards & SLA Management

Workflow Automation & Orchestration

Configuration & Asset Management

Knowledge Base

Supply Chain Management

Project Management System (PMS)

- Centralized Project Management
- Role-Based Dashboards
- Structured Task Management
- User & Access Management

IT Asset Management

- IP-Based
- IT Asset Discovery
- User & Asset Relationship Management
- Non IP-Based
- Software Asset & License Management
- Contract, Warranty & AMC Management

Database Activity Monitoring (DAM)

- Authentication & Access
- Database Onboarding & Configuration
- Activity Monitoring & Logging
- Alerting & Threat Detection
- Session Monitoring
- Centralized Dashboard & Monitoring
- Database Discovery & Inventory
- Database User Management
- Data Protection & Access Control

Database Schema Management (DBSM)

- Schema-as-Code Management
- Automated Change Comparison
- Safe Rollback & Recovery
- Developer-Aligned Workflows
- Cross-Database Portability

Full Stack Observability (FSO)

- Service Observability & Dependency Mapping
- Unified Log & Event Intelligence
- Flexible Search & Investigation
- AI/ML Analytics & Generative Insights
- Automation & Auto-Remediation
- Reporting & Visualization

Software Bill of Material (SBOM)

Data Governance & Data Compliance (DPDPA)

Information Rights Management (IRM)

- Access Control & Encryption
- User Authentication
- Persistent Protection
- Offline Access Control
- Watermarking & Screen Capture Prevention
- Revocation

Digital Rights Management (DRM)

- Copy Protection & Expiration Controls
- Playback Restrictions & Offline Playback
- Watermarking
- Multi-Platform Support
- Compliance Reporting
- Anti-Tampering

SOC (Security Operations Center)

- 24/7 Threat Monitoring & Detection
- Alert Triage & Investigation
- Incident Response & Escalation
- Security Event Logging & Reporting
- Vulnerability Assessment & Management
- Threat Intelligence Integration

NOC (Network Operations Center)

- 24/7 Network Monitoring
- Performance Optimization
- Availability & Uptime Management
- Traffic Analysis & Capacity Planning
- Change & Configuration Management
- Incident & Problem Resolution
- Escalation & Ticketing

NDR (Network Detection & Response)

- 24/7 Threat Monitoring & Detection
- Alert Triage & Investigation
- Incident Response & Escalation
- Security Event Logging & Reporting
- Vulnerability Assessment & Management
- Threat Intelligence Integration

MDR (Managed Detection & Response)

- 24/7 Endpoint Detection & Monitoring
- Threat Hunting
- Incident Investigation & Response
- Managed SIEM
- Threat Intelligence & Context
- Endpoint Response Coordination
- Security Advisories & Guidance
